Message from the Organizing Chairman's Desk looking forward

Dear Esteemed Doctor,

It is with extreme honour and delight, I take this opportunity to invite you to RSSHI's National Conference, being held at our own city of Agra for the first time ever.

The Conference slated to be held on 19th-21st of September, 2025 at Hotel Double Tree by Hilton aims to foster a multi-specialty approach to a multi-organ problem, that Hypertension has been recognized for. During the conference, we shall be discussing topics ranging from Basics, Internal Medicine, Cardiology, Nephrology, Endocrinology, Psychiatry, Gynaecology in the context of Hypertension.

We have also tried our best to put together a comprehensive and exhaustive scientific programme, and also showcase the hospitality that Agra is famous for.

I wish the doctors participating in the conference have a good learning experience and are able to foster new insights to the problem of Hypertension.

The Theme of the conference "Independence from Hypertension" addresses the change in vision of Hypertension treatment, that we do not just aim to control but also to cure Hypertension.

Hope the conference allows everyone of us to take home something meaningful at the end of it all.

Looking forward to your gracious presence.

Dr. CR Rawat
