

RSSHI

Research Society for the Study Of
Hypertension in India

Dr. CR Rawat
National President, RSSHI

Message From the President

Greetings from the Agra !

The OC of RSSHI have the immense pleasure of inviting you to the RSSHI Annual Conference, the largest and the most comprehensive, exhaustive meeting of multispecialty branches dealing with prevention, treatment, consequences and allied dilemmas of Hypertension. The Annual Conference will be held at Hotel Clarks Shiraz, Agra from 18th-20th December, 2026.

We are committed to give a world class conference with exhaustive scientific sessions, state of the art audio-visual arrangements and of course, great hospitality.

With the background of gentle breeze coming from the corridors of Raj with plush greenery all around, and the opportunity to interact with key opinion leaders; it is the best venue for such a conference.

The Scientific Committee is planning an innovative and original programme to present, share and debate on the latest science and research pertaining to different branches in the field of hypertension.

Dr. CR Rawat

National President
RSSHI

About The Conference

At RSSHI, We aim for a multispecialty collaboration so as to realize the concept of treating the whole patient and not just a single process. We aim to dissipate the nuances that comes with knowing a subject well enough in different scenarios.

Highly Qualified & Experienced

The Expert Speakers - highly trained and experts in their fields have vast knowledge and a command over their domain of subject so as to guide treatment in the right direction.

Patient-Centered Approach

Every treatment, diagnosis is discussed keeping the patient in mind.

Multidisciplinary Collaboration

So as to understand and give better results to the patient at an unprecedented level.

RSSHI had been previously recognised by UP-MCI, granting it 12 credit hour points for participants, joining in for 3 days.

MCI credit points have been applied for, for this conference as well.
